

Chapter 1: The Runt's Plight

Grr was the weakest of his batch, a scrawny goblin with pale green skin and oversized, clever eyes. While his siblings fought and fed on scraps, Grr used his wits to scavenge unnoticed. He could not speak, his vocal cords stunted from birth, but he understood far more than the others.

One fateful day, chaos erupted in the goblin village as migrating Titans approached. The ground trembled, huts collapsed, and goblins scattered. Grr, too slow to flee, was caught in the carnage. A massive Titan stomped through the settlement, oblivious to the destruction it caused.

Grr, tangled in debris, was scooped up in a massive clump of dirt and foliage stuck between the Titan's toes. The Titan's stride carried Grr far from home, into uncharted lands of danger and wonder.
